• You have many **protected rights** as a consumer of funerary services and goods. Below you will find important information the Federal Trade Commission (FTC) requires us to disclose to our consumers. If you need further clarification, ask us questions. We aim for open communication and simple pricing.

• Prior to drafting any contract for goods or services, the responsible party or the decedent’s survivor who is handling the funeral arrangements is entitled to receive a copy of any **pre-need agreement** in the possession of the funeral establishment that has been signed and paid for, in full or in part, by or on behalf of the decedent.

• The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. **However, any funeral arrangements you select will include a charge for our basic services and overhead.** If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

• If you want to arrange a direct cremation, you can use an alternative container. Alternative containers encase the body and can be made of materials like fiberboard or composition materials (with or without an outside covering). The containers we provide are made of cardboard. It is the simplest and greenest option available for cremation. You may provide us with your own cremation container and Urn. Or you may purchase a different container and Urn from our selection of Funerary products. All caskets, containers and urns must adhere to Crematory acceptable standards in size, composition and durability.
